

Bridge Security Solutions

Climate Change, Environmental and Sustainability Policy Statement

At Bridge Security Solutions, we are committed to integrating sustainability into every aspect of our business operations. We recognise the critical role we play in addressing climate change and protecting the environment for future generations. Guided by our ISO 14001:2015 Environmental Management accreditation, we adopt responsible practices to:

- Minimise greenhouse gas emissions and energy consumption while promoting renewable energy solutions.
- Prevent pollution and manage environmental risks effectively to safeguard natural resources.
- Embrace sustainable resource management through waste reduction, recycling, and circular economy principles.
- Protect biodiversity and ecosystems by supporting initiatives that restore and enhance natural habitats.
- Foster partnerships with suppliers and stakeholders who share our commitment to environmental sustainability.

Through continuous improvement, innovation, and transparent reporting, we aim to drive measurable progress toward our sustainability goals, ensuring resilience and environmental stewardship are at the core of our corporate strategy.

Bridge Security Solutions actively engages employees and communities to champion a culture of sustainability and lead by example in creating a sustainable future.

Signed on behalf of Bridge Security Solutions
